

# Art of Motorcycling

Season 3

Royal Enfield announced the third season "Art of motorcycling" campaign in India. Which aimed to encourage creative minds and motorcycling enthusiasts alike to express their love for art as well as motorcycling.

*Untamed* – This artwork represents the spirit of freedom, grit, and exploration that every rider feels when they hit the open road. As a bike enthusiast and a proud Royal Enfield rider, I've poured my passion for riding into this piece. It's not just about the machine, but the endless horizons, the roaring engines, and the untamed soul chasing adventure. Every ride tells a story; This is the entry of my illustrative artwork for the season 3!
